1. Connection de la page 2 avec les fichiers CSS et js.

Avant :

The screenshot shows the developer tools with the 'Elements' tab selected for the 'page2.html' view. The page itself has an orange header with the text 'Parlons web design !' and a footer with social media links. On the left, there's a contact form with fields for 'Nom', 'Adresse email', and 'Comment nous avez-vous connu ?'. Below the form is a text area for 'Brief de votre projet (Ajoutez autant de détails que nécessaire)' and an 'ENVOYER' button. The right side of the screen shows the 'Console' tab with a long list of errors, mostly related to missing or unsupported CSS and JS files like 'bootstrap.min.css', 'font-awesome.min.css', and 'jquery-2.1.0.min.js'.

Après :

This screenshot shows the developer tools with the 'Elements' tab selected for the 'page2.html' view, similar to the previous one. The page content and layout remain the same. However, the 'Console' tab now displays very few errors, suggesting that the issues identified earlier have been addressed. The errors shown are mostly related to file paths and strict MIME checking.

2. Ajout focus sur les liens :

Avant :

The screenshot shows the 'About Us' page of the website. The 'ILLUSTRATIONS' section features three icons: 'WEB DESIGN', 'STRATEGIE', and 'ILLUSTRATIONS'. The 'ILLUSTRATIONS' link is highlighted with a blue border. The browser's developer tools are open, showing the CSS for the body element.

```

body {
    margin: 0;
    padding: 0;
    background: #FFF;
    overflow-x: hidden;
    -webkit-font-smoothing: antialiased;
    -moz-osx-font-smoothing: grayscale;
}

```

Après :

The screenshot shows the 'About Us' page after the modification. The 'ILLUSTRATIONS' link is now highlighted with a red border. The browser's developer tools are open, showing the CSS for the body element.

```

body {
    margin: 0;
    padding: 0;
    background: #FFF;
    overflow-x: hidden;
    -webkit-font-smoothing: antialiased;
    -moz-osx-font-smoothing: grayscale;
}

```

3. Indication langue de la page

Avant :

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file index.html

Checker Input

Show source outline image report Options...

Check by Aucun fichier sélectionné.

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

1. **Warning** This document appears to be written in French but the `<html>` start tag has `lang="Default"`. Consider using `lang="fr"` (or variant) instead.
From line 1, column 16; to line 2, column 21
`:type html><html lang="Default"><head>`
For further guidance, consult [Declaring the overall language of a page](#) and [Choosing language tags](#).
If the HTML checker has misidentified the language of this document, please [file an issue report](#) or [send e-mail to report the problem](#).

2. **Error** Bad value `Default` for attribute `lang` on element `<html>`: The language subtag `default` is not a valid IANA language part of a language tag.
From line 1, column 16; to line 2, column 21
`:type html><html lang="Default"><head>`

Document checking completed.

Used the HTML parser.

4. Nom de page et description

Avant :

The screenshot shows a web browser window with the URL <http://127.0.0.1:5500/index.html>. The page content includes a header with the logo 'La chouette agence', a main section with text and three icons (Web Design, Stratégie, Illustrations), and a testimonial quote. The browser's developer tools are open on the right side, specifically the 'Elements' tab under the 'Styles' section, showing the CSS code for the body element.

Après :

The screenshot shows the same web browser window after modification. The page content remains identical to the 'before' version. The browser's developer tools are still open on the right side, showing the same CSS code for the body element.

5. Nomination correcte des pages dans le menu de navigation.

Avant :

Après :

6. Rétablissement de niveaux de titres correctes &

7. Suppression des images de titre, remplacement par blockquote et h2

Avant :

The screenshot shows a web browser window with two tabs: 'La chouette agence - Bienvenue' and 'La chouette agence - Contact'. The sidebar on the left displays a 'HeadingsMap' tree with the following structure:

- La chouette agence - Bienvenue
 - 1 - La chouette agence.
 - 3 - Web design
 - 3 - Stratégie
 - 3 - Illustrations
 - 2 - Nous souhaitons aider les entreprises de la...

 - 3 - Création d'un site internet pour un voyag...
 - 3 - Conception d'un site pour une agence d...
 - 2 - Prêt pour redonner vie à votre projet ?Cont...

Après :

The screenshot shows the same web browser window after modifications. The sidebar is still present on the left, but the main content area has been updated. The title 'La chouette agence' is now displayed in a large, bold, black font within a blockquote element. The original image of a smartphone on a desk is still present, but its title role has been removed.

8. Compression des images bmp vers le format jpg.

Avant :

The screenshot shows a browser window with three tabs: "La chouette agence - Bienvenue", "La chouette agence - Contact", and "G à majuscule - Recherche Google". The main content area displays the website's homepage. The developer tools Network tab is open, showing a list of resources. Several files are listed as "x-ms..." (cross-platform) and "image-de-presentation.bmp" and "image-de-presentation.bmp" are specifically mentioned. The file sizes range from 615 kB to 3.2 MB. The waterfall chart shows the sequential loading of these files.

Après :

The screenshot shows the same browser setup and website content as the previous one. However, the developer tools Network tab shows the same resources but with much smaller file sizes. For example, "image-de-presentation.jpg" is now 203 kB instead of 615 kB. The waterfall chart shows the faster loading of these compressed files.

12. Performances globales.

Avant :

Après :

http://127.0.0.1:5500/index.html

The screenshot shows the Lighthouse Performance Audit results for a website. At the top, there are five circular performance metrics: Performance (92), Accessibility (92), Best Practices (93), SEO (100), and PWA (Progressive Web App). Below these are three color-coded ranges: red for 0-49, orange for 50-89, and green for 90-100. The main score of 92 is displayed prominently in a large green circle. The audit details section shows the following metrics:

Metrics	Value	Score
First Contentful Paint	0.9 s	Green
Speed Index	0.9 s	Green
Largest Contentful Paint	1.7 s	Orange
Time to Interactive	1.0 s	Green
Total Blocking Time	10 ms	Green
Cumulative Layout Shift	0.048	Green

Values are estimated and may vary. The [performance score is calculated](#) directly from these metrics. [See calculator.](#)
